

**STEM Specialist – Northwest Expansion
One each Kenora and Thunder Bay
\$47,300 per year**

Science North is seeking a Science Technology Engineering and Math Specialist to work with the Project Lead and Senior Community and Indigenous Engagement Liaison on engaging the community in workshops, stakeholder sessions and surveys to help foster support and input from the community as a whole. The successful candidate will work with the Northwest Expansion Project team to support and foster strategic partnerships and networks and deliver pop-up information sessions around the city and region.

The STEM Specialist will be a key member of the Education and Northern Programs team and the Northwest Expansion team, leading and supporting programs and initiatives out of our Thunder Bay and Kenora offices respectively.

They will

- Work with the NW Expansion Steering Committee to organize community engagement sessions;
- Nurture and grow strategic partnerships and networks to create an environment and appetite for fundraising for a science centre and build funder relationships across Northwestern Ontario at a broad level;
- Support the work required for the expansion project and work with the project team and consultants to follow through on actions as determined throughout the contract

The successful candidate will work a variety of audiences, actively communicate and promote Science North programs and deliver quality, educational and informal science experiences throughout the North West. Successful candidates will have experience working with a variety of audiences, experience in program development and delivery and will be science focused with a formal background and/or equivalent experience in science, education and/or related field. This position requires excellent verbal and written communication skills, strong organizational and interpersonal skills, a willingness to travel and the ability to work in a fast-paced environment managing multiple priorities. The position also requires a current (less than 3 months) criminal background check and a valid driver's licence reflecting a 3-year safe driving record.

This is a contract opportunity to December 31st, 2022 (with possibility for extension) at a salary of \$47,300 per year.

Staff interested in applying for this position are asked to send a letter of interest outlining how their qualifications (including Science North and external experience) would contribute to successful performance in this role. A letter simply indicating an interest in the job will not be sufficient; it must contain detailed information on your experience relating to the job responsibilities and requirements. Accommodations are available upon request in all aspects of Science North's selection process.

Letters are to be sent directly to Rebecca Wilson by March 18, 2022 at 5:00 pm
