

Science Communicator – Body Zone

Do you have a passion for science and love sharing your knowledge with people? Do you want to be part of an enthusiastic team that thrives on creating cool science experiences? Then being a Science Communicator is the right opportunity for you.

The Science Communicator in Body Zone will work with the Staff Scientist in the creative development of science programs related to human biology which includes examinations and dissections of preserved organs. The Science Communicator will deliver these science experiences to schools and public audiences of all ages. Responsibilities will also include overseeing and troubleshooting daily area operations and coordinating the activities of staff, volunteers and co-op students. Finally, the Science Communicator will ensure exhibits and supplies are available and maintained, as well as monitor and enforce safety protocols.

Successful candidates will have excellent verbal communication skills in both French and English, demonstrated leadership ability and strong organizational skills. Work may involve evenings, weekends and work on public holidays. This is a 24-month full-time contract position at \$17.36 per hour.

Apply online at <http://sciencenorth.ca/careers>. An early application represents your best opportunity for consideration. Science North is committed to an inclusive workplace and invites applications from all qualified individuals to join our diverse team. Accommodations are available upon request in all aspects of Science North's selection process. We thank all interested candidates; only those selected for interviews will be contacted.
