

## Technical Specialist Visitor Services & Sales (AV)

Science North is looking for a Technical Specialist to focus on delivery of exceptional technical experiences for our clients in our Visitor Services & Sales unit. If you have a background working with electronics, audio visual equipment/techniques, creative lighting and programming, and special effects you are the perfect fit for this role. As the successful candidate you will work collaboratively in an energetic and innovative environment with a variety of team members including other Technical Specialists, Technologists, Project Managers, Senior Leaders and external experts to identify, source, maintain and install required equipment at both Science North and Dynamic Earth. You will play a critical role in the operations of the Centre and while a significant amount of work will happen during standard business schedule, you must be flexible to work evenings, weekends, and public/statutory holidays, as required.

### **Primary Role:**

- Creative conceptualization, execution, and implementation of theatrical and architectural lighting for buildings, productions, and special events.
- Design, fabricate and provide technical expertise for audio visual systems and lighting.
- Research and source suppliers, obtain quotes and purchase technical equipment and systems.
- Participate in day-to-day operations such as regular maintenance, test runs, troubleshooting and repairs on equipment and systems.
- Analyze technical requirements, and source appropriate equipment and solutions.
- Provide prompt and efficient technical support to internal teams, at Science North and at Dynamic Earth, as well as external clients.
- Develop and maintain technical manuals and tools/supply inventories.
- Participate as an active team member on new projects to inform and develop concept, scope, design, budgets, and schedules.
- Lead event setups and act as client liaison for technical requirements of indoor and outdoor events.
- Maintain inventory of all audio and visual equipment related to the site
- Lead audio and visual setup for internal and external media events
- Perform regular maintenance and trouble shooting in theaters for all audio, lighting and visual components

### **Requirements:**

- College certificate or diploma in a technical field with 3 to 5 years' experience
- A valid G driver's license in good standing
- Mechanically inclined and familiar with a variety of small power tools
- Ability to work in a variety of conditions including underground and at heights
- Excellent English communication skills
- Demonstrated aptitude for problem-solving and innovation

### **Compensation package highlights**

This is a long-term position supported by an excellent compensation package:

- Salary range of \$47,300 – \$57,000 per year
- Annual performance and merit increase consideration
- Participation in the Science North Employee incentive plan
- Comprehensive group benefit package including medical, dental, vision, life/travel insurance, short and long-term disability coverage
- Pension plan following one year of service
- Free or discounted admission to partner attractions outside Sudbury, Science North attractions and program discounts, fitness membership contribution

- Professional development opportunities
- Minimum 3 weeks' vacation

Apply online at <http://sciencenorth.ca/careers>. An early application represents your best opportunity for success. Science North is committed to an inclusive workplace and invites applications from all qualified individuals to join our diverse team. Accommodations are available upon request in all aspects of Science North's selection process. We thank all interested candidates; only those selected for interviews will be contacted.
